**What is this study about?**
The purpose of the study is to learn from individuals with chronic pain who are caregivers or care recipients.

**What will I be asked to do?**
You will be asked to participate in a focus group with other individuals and talk about:
- your pain
- the potential for future interventions to meet your needs
You will receive a $50 gift card following participation in the focus group.

---

**Are you a caregiver or care recipient with chronic pain?**

**This research is conducted by:** Christine Fruhauf, PhD, PI and Arlene Schmid, PhD, OTR, PI through the department of Human Development and Family Studies and the department of Occupational Therapy at Colorado State University.
