

Seeking Participants for the Health and Daily Experiences (HEADE) Study

*Do you identify as European
American or Latino/Hispanic?
Are you 60+ years old?*

If so, we are seeking volunteers to participate in a study on health and daily experiences. You will be asked to complete **7 days** of daily life assessments and **5 lab visits** to the Colorado State University (CSU) main campus. Lab visits will include one information overview and one follow-up day (each ~ 30 min) and 3 lab sessions (each ~ 60 mins). You could **earn up to \$200** for your participation.

For more information, please contact:

Dr. Gloria Luong

**Director of the HEART Lab at Colorado State
University**
